

UI/UX Designer

Clearly Innovative, Inc. is a minority owned digital solutions company headquartered in Washington DC. We design and develop websites, mobile apps and enhance our clients' overall digital strategies. We're growing rapidly and operate in a FAST-PACED environment where every individual plays a critical role in our team's success. We are currently looking for an UI/UX Designer to work onsite at our client's location in Baltimore, Maryland, starting March 2018.

The ideal candidate should have a background which includes three or more years of user interface and user experience design. This individual will be responsible for conducting user research and translating client requirements into wireframes and prototypes. Preference will be given to candidates who have experience designing complex digital solutions. Responsibilities include, but are not limited to:

- Work closely with Agile Project Manager to accurately illustrate user stories
- Understand and facilitate design concepts and processes in order to translate client ideas into wireframes and mockups that lead to intuitive user experiences
- Take a user-centered design approach to deliver client needs and technical requirements
- Provide original ideas that bring simplicity and user friendliness to complex design roadblocks
- Identify design problems and devise elegant solutions
- Collaborate with team members and internal & external stakeholders, including but not limited to client, technical architect, project manager, front/back-end developers and other stakeholders

Requirements

- Expertise using design software including, but not limited to InVision and Sketch
- A solid grasp of user-centered design and testing methodologies, subsystems and usability and accessibility concerns
- Extensive experience in using UI/UX design best practices to design solutions with a deep understanding of mobile-first and responsive design
- Ability to clearly and effectively communicate design processes, ideas and solutions to team members and clients
- Willingness to assist team members, share knowledge and learn from others
- Understand native and cross-platform frameworks for mobile design and development

To Apply

To apply, please email your résumé and cover letter to info@clearlyinnovative.com with “**Job: UI/UX Designer**” in the subject line. Cover letter **MUST** include your hourly rate. No relocation package. Only those candidates who provide all information requested will be considered.
