

Web Developer

Clearly Innovative, Inc. is a minority owned digital solutions company headquartered in Washington DC. We design and develop websites, mobile apps and enhance our clients' overall digital strategies. We're growing rapidly and operate in a FAST-PACED environment where every individual plays a critical role in our team's success. We are currently looking for a Web Developer to work onsite at our client's location in Baltimore, Maryland, starting March 2018.

The ideal candidate should be an experienced Web Developer who can work with a team to develop new and improve existing features for responsive web applications. Responsibilities include, but are not limited to:

- Work in a team based environment to analyze client needs
- Determine user needs by analyzing technical requirements
- Build user interfaces and prototypes from wireframes and designs
- Follow and implement industry accepted best practices and tools
- Develop web services and APIs
- Develop and document test cases using various methodologies
- Resolve defects and bugs for digital solutions

Required Skills

- Solid Understanding of HTML5/CSS3, jQuery and Responsive Design
- JavaScript and front-end frameworks
- Agile Software Development Principles
- Git and GitHub
- Previous experience working with a software development team
- Familiarity with relational databases or noSQL Databases

Additional Skills

- Google Cloud Platform or Amazon Web Services (AWS)
- Native Android experience is a plus

To Apply

To apply, please email your résumé and cover letter to info@clearlyinnovative.com with "**Job: Web Developer**" in the subject line. Cover letter **MUST** include your hourly rate. No relocation package. Only those candidates who provide all information requested will be considered.
